

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

On motion of Mr. Hicks,

The statement read to the Committee of the Whole by Senator Forrester, relative to House bill No. 140—the Corporation bill—was ordered to be printed in the Senate Journal of today.

The following is the statement:

"This bill consolidates and supersedes nearly 100 laws relating to corporations. Included in the consolidation are the principal corporation acts, such as Act 232 of 1903, relating to mercantile and manufacturing companies and acts supplementary thereto: Act 122 of 1877 relating to mining companies; Act 171 of 1903 relating to

non-profit companies and the acts relating to co-operative companies. Under this code any class of business or non-profit company can incorporate excepting the corporations mentioned in Sec. 8, Chapter 1, Part 1, such as banks, insurance companies, railroads, certain utilities, cemeteries, etc. Churches, lodges and all classes of societies, etc., can if they wish, incorporate under the code, but the churches and lodges will continue under their present laws which are not repealed.

Some of the features of this code are the non-profit shares for business corporations, voluntary dissolution, welfare stock for employes, based upon continued and faithful service; and other features liberalizing the attitude of the State towards corporations, and which will enable Michigan corporations to compete with foreign corporations; and instead of Michigan business being forced to go to Delaware or New Jersey to incorporate they can incorporate with the same privileges at home.

"Among these liberal provisions are:

1. Removal of limit of capital;
2. Non-par Stock;
3. Removal of 50 per cent stock subscriptions;
4. Simpler method of filing articles."

"Under this code, articles, etc., will be filed instead of being copied and recorded in Secretary of State's office which will save labor and expense for the State.

The saving clause in the code reserves to all existing corporations their rights and privileges."

Bills Ordered Printed.

On request of Senator Clark the following entitled bills were ordered printed:

Senate Resolution No. 30.

Providing for a committee to investigate the incorporation of the Michigan-Colorado Mining Company, its authorization to sell and the sale of its stock to the people of this State;

Whereas, The Michigan-Colorado Mining Company was ordered to stop the sale of its stock many months ago, and at that time certain charges were made against the financial stability of the company and the integrity of the brokerage house marketing such securities, and

Whereas, Thousands of investors have the savings of a life-time invested in this Company, and many women and children are said to be destitute because of the failure of this concern, and,

Whereas, The chief asset listed by the company at the time of its application to sell stock under Act No. 46 of the Public Acts of 1915, known as the "Blue Sky

Law" was a mine located in the State of Colorado which it now appears was never owned by the company, its only interest being an equity acquired by a first payment on a contract of purchase of the property, and,

Whereas, The Company was given authority to sell a large issue of stock in this State, a large portion of which was sold and it was charged that stock was sold far in excess of the authorized issue and far in excess of its assets, and,

Whereas, There has been a demand by the press and the public for an inquiry into the affairs of this concern because of the loss to thousands of people who can ill afford the financial reverses, and because of the great number of people affected it is a matter of great importance and one of legislative concern, the subject matter of which is known in part to all of us because of press stories, therefore be it,

Resolved by the Senate, That a committee of three Senators to be named by the President of the Senate be appointed to make a full investigation into the incorporation of this company, its authorization to sell stock and the sale of stock, and to inquire into all matters incident thereto; and be it further,

Resolved, That such committee is hereby given full power and authority in making such investigation to administer oaths, to examine any and all persons deemed proper by said committee, to issue subpoenas and compel the attendants of witnesses and the production of books and papers and other records, relating to any of the matters under investigation, and be it further

Resolved, That said committee is hereby authorized to call upon any officer or department of the State Government to furnish said committee with expert or legal assistance they may require, and said committee is further authorized to employ competent stenographic or other assistance and to incur such other expense as may be necessary to carry out the provisions of this resolution, and be it further

Resolved, That said committee shall sit and hold meetings in the interim between the 29th day of April A. D. 1921, and the 20th day of May of the same year, and on such later day or on any succeeding day that the Legislature is meeting for the Special Session to be called report its findings and recommendations to this Senate.

Board of Commerce, Saginaw, Mich., April 16, 1921.

Hon. Bayard G. Davis, Senator, Lansing, Mich.

My dear Senator:—I have read with a great deal of interest the fact that you have presented a bill which would place jitney buses under the control of the Michigan Public Utilities Commission. No more meritorious measure, in my opinion, has been presented to the Senate than this bill. The time has arrived when regulation must be had over the jitney bus service.

In our city, and I presume the same thing applies elsewhere, this promiscuous, uncontrolled jitney service is destroying the efficiency of the street car service and is injuring and hindering the industrial growth of the city.

Our council, last Tuesday evening, had before it an ordinance providing for the regulation of the jitney service, and a day or two before the council meeting the jitney drivers and owners joined the Federation of Labor and brought to the council meeting 200 or 300 interested laboring people with some agitators who openly threatened that if the council attempted to pass the measure they would immediately institute proceedings to recall those voting in favor of it. I am glad to say that our mayor and one of the councilmen stood up under this fire and voted in favor of the ordinance, but the remaining three of the council voted to table the ordinance, which necessarily means that it is at an end.

It appeared at that meeting that we have 26 jitney buses in the city and that every bus was operated upon the same line paralleling the main street car line of the city. We have many paved streets and many other street car lines upon paved streets, but these jitneys seem to hug the main line upon the main thoroughfare, thereby taking all of the revenue from the street car company. They

operate without bonds and the public necessarily assumes the risk of injury and damage. I think that the time has arrived that the control of this service should be under the Public Utilities Commission, thereby removing it from local conditions such as prevailed here last Tuesday evening, and the cities will then be properly taken care of and permitted to industrially develop. There is no uniformity to the jitney service, no schedule, and in fact no control over the same.

I am assuring you that this organization heartily endorses this measure and I am going to write Senator Penney and our representatives in the House urging cooperation.

I beg to remain

Respectfully yours,

SAGINAW BOARD OF COMMERCE,
Julius B. Kirby, Managing-Secretary.

Petition No. 644. By Mr. Phillips. Petition of J. J. Lynch and 40 others, protesting against the proposed bill to place motor busses under the Public Utilities Commission.

The petition was ordered spread on the Journal, as follows:

Lansing, Mich., April 20, 1921.

To the Honorable Senate of the State of Michigan:

We, the undersigned automobile dealers and owners, citizens of the State of Michigan, in meeting assembled do vigorously protest against the proposed bill now before the State Legislature to place motor busses under the Public Utilities Commission. We believe that the business, health and prosperity of Michigan depends in large part on transportation. Motor busses supplement steam roads and electric cars. They give more service. They insure reasonable rates on which the life of business depends. They should not be placed under a system of control which would inevitably result in throttling them and lessening their service to the public. We ask every opportunity for more and better transportation for Michigan and the people of Michigan.

The petition was laid upon the table.

Special Order.

The President announced that the hour had arrived for the Special Order, being the consideration on Third Reading of the following entitled bill:

Senate bill No. 129 (file No. 211), entitled

A bill to amend section 4 of Act No. 419 of the Public Acts of 1919, entitled "An act to provide for the regulation and control of certain public utilities operated within this State, to create a public utilities commission, and to define the powers and duties thereof; to abolish the Michigan Railroad Commission and to confer the powers and duties thereof on the Commission hereby created; to provide for the transfer and completion of matters and proceedings now pending before said Railroad Commission; and to prescribe penalties for violations of the provisions hereof," approved May 15, 1919, to enlarge and extend the jurisdiction of said commission; to fix the maximum rate of fare of interurban, suburban and electric railroads, and to add seven new sections to said act to be known as sections 4-a, 4-b, 4-c, 4-d, 4-e, 4-f and 13 respectively.

Pending the taking of the vote on the passage of the bill,

Mr. Osborn offered the following amendment:

Strike out Section 4 and insert in lieu thereof the following:

Section 4. In addition to the power and authority conferred by the preceding section, the jurisdiction of said commission shall be deemed to extend to and include the control or regulation, including the fixing of rates and charges of all public utilities within this State producing, transmitting, delivering or furnishing gas or electricity for heating or lighting purposes for the public use, and also all transportation companies carrying passengers or freight between points within this State by water, when the route traversed lies wholly within this State, and to public utilities producing, delivering or furnishing steam for heating or power purposes, or water for domestic or commercial use, and to street railway companies. Subject to the provisions of this act, said commission shall have the same measure of authority with reference to such utilities as is granted and conferred

with respect to railroads and railroad companies under the various provisions of the statutes creating the Michigan Railroad Commission and defining its powers and duties. The power and authority granted by this act shall not extend to or include any power of regulation or control of any municipally owned utility; nor to that portion of the power produced by any person, firm or corporation not sold for public use; and it shall be the duty of said commission, on the request of any city or village, to give advice and render such assistance as may be reasonable and expedient in respect to the operation of said utility owned or operated by any city or village. As a condition for the furnishing of such assistance or advice, said commission may require the city or village to make and file with the Commission annual reports in such form as the Commission may require. The Commission shall have no power to change or alter the rates or charges fixed in, or regulated by any franchise or agreement heretofore or hereafter granted or made by any city, village or township. It shall be competent for the legislative body of any municipality and any public utility operating within the limits of said municipality, whether such utility is operating under the terms of a franchise or otherwise, to join in submitting to the commission any question involving the fixing or determination of rates or charges or the making of rules or conditions of service, and the commission shall thereupon be empowered and it shall be its duty to make full investigation as to all matters so submitted and to fix and establish such reasonable maximum rates and charges and prescribe such rules and conditions of service and make such determination and order relative thereto as shall be just and reasonable. Such order when so made shall have like force and effect as other orders made under the provisions of this act. The several municipalities of the State shall have the right, power and authority through their legislative bodies to fix the rates and charges of the utilities operating within their corporate limits and to prescribe reasonable rules and regulations relating to the service thereof and to the extensions of such service. No order or ordinance made or adopted by any municipality shall take effect until after the expiration of thirty days from the day of service thereof on the utility concerned. Any such utility considering itself aggrieved by the order or ordinance of the municipality may appeal therefrom to the Michigan Public Utilities Commission in accordance with such rules and regulations as said commission may establish. Thereupon the same procedure shall be observed as is prescribed in section 8 hereof and said commission shall have full jurisdiction to hear and determine the matter and to make such order in the premises as may be deemed proper and reasonable: Provided, however, That this section shall not apply to public utilities furnishing gas for heating, lighting or power purposes when operated in cities having a population in excess of three hundred thousand, or in any municipality the boundaries of which are entirely within the boundaries of any such city."

Whereas the Governor has intimated that a special session of this legislature will shortly be called to consider the passage of an act to carry out the provisions of the constitutional amendment respecting the payment of a bonus to the Michigan veterans of the late World War; and

Be it further resolved, That any expense incident to such organization, printing and distribution of applications, and the printing of the bonds, and material required for any such work, be met out of the emergency fund of the State under the accounting laws; and

Be it further resolved, That it is the sense of the legislature that such enabling act shall be so drafted as to be liberally construed in favor of all veterans of the World War, who were residents of Michigan at the time of entering the United States service, and who served therein at any time between April six, nineteen hundred seventeen and November eleven, nineteen hundred eighteen, and for further time of service therein up to August one, nineteen hundred nineteen.

Sir: I am returning to the Senate herewith, without my approval, Senate Bill No. 71, File No. 58, being Senate Enrolled Act No. 62, which proposes to re-establish party enrollment in primary elections.

Respectfully,

ALEX. J. GROESBECK,
Governor.

Hon. Dennis E. Alward,
Secretary of the Senate,
Lansing, Michigan.

Veto—Re-Appraisal of Banking Houses.

Messages from the Governor.

The following message from the Governor was received and read:

Executive Office.
Lansing, May 24, 1921.

To the Honorable, the President of the Senate.

Sir:—The Legislature at the session beginning May 24th, 1921, is requested to pass legislation making effective the Soldiers' Bonus Amendment to the Constitution, for which purpose this special session was primarily called.

There is also submitted for consideration the subjects of proposing amendments to the Constitution relative to Ports and Port Districts—State Income Tax—Commission Government of Counties—the Short Ballot—and Compensation of members of the Legislature.

The purpose of the first four proposals is to remove existing constitutional restrictions upon legislative authority to deal with these important subjects as the public welfare may demand, and that of the last is to correct an error in the resolution adopted at the General Session.

There may also be considered legislation pertaining to:

The amendment of the General Banking and Trust Company Laws so as to permit the exercise of certain trust powers by Michigan Banks and allowing Trust Companies to do banking business under restrictions prescribed by the legislature—

The payment of Emergency Claims by the State—

The prescribing of rules governing appropriations and transfer of State funds—

The Teachers' Retirement Fund—

The election expenses of Candidates for office—

The amendment of the Vocational Educational Act commonly known as the James Law—

The regulation of Motor Truck Traffic—

The protection of shade and ornamental shrubs and trees along the highways—

The regulation of the installation of sprinkling devices for prevention of fires—

The amendment of Act 388 of the Public Acts of 1913 providing for State insurance on state property, making it possible to suspend its compulsory provisions—

The amendment of House Enrolled Act No. 249 of 1921 providing for the regulation of small loans so as to transfer enforcement of its provisions to a department other than the Banking Department—

Repealing the appropriation of Seventy-Five Hundred Dollars provided for by Act No. 274 of 1919 because of its inclusion in a department budget—

The amendment of the General Tax Law with reference to interest on deferred tax payments so as to make the rate fixed uniform throughout its provisions—

The granting of appropriations for general emergency purposes—The Department of Conservation—The State Banking Department—The State Normal Schools—For transferring and examining inmates of State Institutions—Expenses of County Agents in care of juvenile offenders—For sick and disabled soldiers including provision for payment of Civil War bounties and an appropriate sum towards defraying the expense of the reunion of the 32nd or Red Arrow Division at Detroit in August.

Indeterminate sentences so as to clarify the provisions of Act 184 of the Public Acts of 1905 as amended—

The amendment of Section 3 of the Steamship Ticket Law for the purpose of correcting some clerical errors in regard to exemptions—

The amendment of Section 107 of Chapter 14 of the Revised Statutes of 1846 with reference to notaries public—

The amendment of the Act creating the Department of Public Welfare relative to the salary of the Director—

The regulation of dentistry and dental surgery—

The amendment of Section 8, Chapter 1 of Part 1 of House Enrolled Act No. 72 of 1921 for the purpose of clarifying the meaning of the term "or other common carriers" included therein—

The amendment of Act No. 6 of the Extra Session of 1907 relative to dependent and delinquent children—

The amendment of Act No. 272 of the Public Acts of 1915 making the same applicable to gambling and gaming rooms—

The amendment of Section 2 of Act No. 305 of the Public Acts of 1919 with reference to the issue of Public Library bonds—

The jurisdiction of library commissions in cities having a population of more than 250,000—

Pertaining to House Enrolled Act No. 130, an act to provide for the registration of electors—

The painstaking thoroughness manifested by both houses as evidenced by the already resultful legislative accomplishments of the General Session precludes the necessity of submitting more specific data regarding the matters recommended to your attention.

In the disposition of these measures, the Legislature will receive my earnest cooperation.

Respectfully,
ALEX J. GROESBECK,
Governor.

The message was ordered to be printed in the Senate Journal.

Motions and Resolutions.

Mr. Penney offered the following:

Senate concurrent resolution No. 2.

A concurrent resolution memorializing Congress to submit an amendment to the U. S. Constitution relative to an income tax.

Whereas, It is apparent that many citizens of Michigan favor levying hereafter a State income tax such as is imposed by several other States, in an endeavor to more equitably distribute the cost of government, and to relieve the burden of taxation now necessarily placed upon real estate and personal property; and

Whereas, Adoption of the plan may cause many at the head of important organizations and especially those with substantial incomes, to consider establishing their residences and business elsewhere, either in States levying a smaller income tax, or in States or territory where this particular tax is not and may not be put in force, thus in effect and result tending to become detrimental to the best interests of Michigan, and many other States where large enterprises exist; and

Whereas, It may nevertheless be necessary to levy and collect this proposed additional State tax, or its equivalent, in order to meet the continually growing cost of the State's needs; then in order to make the revenue from an income source uniform throughout the United States, and all citizens of the entire country contributing thereto exactly alike, also to avoid the expense, trouble and annoyance of preparing and filing two sets of income returns, (probably different in amount and principle), and afterwards accounting to two sets of officials. Federal and State, thus actually and unnecessarily doubling the cost of operation and collection; therefore be it

Resolved by the Senate (the House of Representatives concurring), That the Legislature of the State of Michigan urge all members of the Congress of the United States, and particularly the members thereof representing the State of Michigan, to propose and submit an amendment to Article XVI of Amendments to the Constitution of the United States to be known as "Section 2," the Article when amended to read substantially as follows, viz.:

ARTICLE XVI.

Section 1. The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

(Proposed Addition or Amendment to above follows, to be known as Section 2.)

Sec. 2. Not less than thirty per cent of the total amount of taxes on incomes collected in each State, according to section 1 of this Article, shall annually be returned to each State for its public funds and use. Payment thereof shall be by warrant to the official or department in each State designated by its law to receive State moneys derived from taxation.

Messages from the Governor.

The following message from the Governor was received and read:

Lansing, June 2, 1921.

To the Honorable, the President of the Senate.

Sir:—In addition to the matters that were submitted to the attention of the Legislature in my message of the 24th, there are submitted the following matters for your consideration:

Additional appropriations for the Soldiers' Home—The Michigan-Wisconsin Boundary Commission—Ionia State Hospital—Mackinac Island Park Commission—Michigan College of Mines—a bill to make the appropriation of \$90,000 for the Marquette Prison cell block available during the fiscal year 1921—a supplemental deficiency bill—such additional appropriations for departments, institutions and State agencies as the Legislature may believe to be necessary.

At the request of different members of the Legislature the following matters are also submitted:

An amendment to Act No. 283 of the Public Acts of 1909 so as to regulate the installation of railroad crossings and providing for their maintenance.

An amendment to Act No. 254 of the Public Acts of 1897 pertaining to the construction and maintenance of drains, etc.

An amendment to Act No. 22 of the Public Acts of the Extra Session of 1919 with reference to the appointment of county agents and prescribing their powers, duties and compensation.

An amendment to House Enrolled Act No. 205 of the Regular Session of 1921.

The repeal or amendment of House Enrolled Act No. 103 of the 1921 session.

A bill to amend the general banking law with reference to the establishment of branch banks.

An amendment to section 12, chapter 2 of part 2 of Act No. 84, Public Acts of 1921, Corporation Code.

A bill to license service stations, garages and repair shops.

An amendment to section 10 of Senate Enrolled Act No. 84 of the session of 1921.

A bill to provide for the assessment of public utilities operating in more than one county by the State Board of Assessors.

The House has already passed the Soldiers' Bonus Bill, but it was amended in several particulars, particularly with reference to the time of maturity of the bonds that are to be issued. This amendment provides that they shall mature serially in 10, 20 and 30 years. It will be recalled that at the general session a joint resolution was passed designating the kind and character of the bonds that were to be authorized at this session. Both previous and subsequent to the adoption of that resolution the State Administrative Board had taken up the matter of the sale of the bonds when authorized. After canvassing the situation thoroughly, it was found that the most salable bond and the one most likely to meet with the greatest favor in view of market conditions was a straight 30-year proposition. There seems to be some misconception as to the effect of the proposed amendment. It has been stated that there will be a saving of considerable interest money if the bonds are made to run serially. This of course is a plain fallacy if the Legislature makes provision for an adequate sinking fund which can be used to retire the bonus bonds as they are offered on the market or to purchase Federal, State and municipal bonds bearing a like or higher rate of interest. It is imperative that the bonus money be available July 1st, and anything which jeopardizes this should be avoided.

Respectfully submitted,

ALEX J. GROESBECK,
Governor.

Whereas, It appears that the estimate for naval and military purposes for the next fiscal year of the United States contemplates an appropriation of \$5,000,000.00 for every working day of the year, and

Whereas, The United States, Great Britain, France, Italy and Japan appropriated the staggering sum of \$16,500,000,000.00 for military and naval purposes during the year A. D. 1920, and

Whereas, We are not a warlike people, and do not covet the land or resources of any nation, but desire that the blessings of peace and prosperity shall be enjoyed by all nations; therefore be it

Resolved by the Senate (the House of Representatives concurring), That the Legislature of the State of Michigan request Congress to join in an earnest effort to bring about an early conference between the representatives of the leading nations of the earth, to the end that all may safely reduce armaments, and thereby lift the crushing and growing burden of taxation from the people; and be it further

Statement of Senator Smith (2nd Dist.)—Income Tax.

Mr. Smith (2nd Dist.) submitted the following statement, relative to his vote on the income tax resolution (House Joint Resolution No. 1—file No. 4), which was passed by the Senate on June 8, 1921:

"My purpose is to explain my vote on the income tax amendment. In so doing I call attention to the fact that this is the first time during either the regular or special session, that I have voted against submitting to the people any constitutional amendment.

I voted "no," because I fail to find any sentiment or demand for it in the district that I have the honor of representing in this Senate. In my humble judgment this is just another effort on the part of the farmer to shift the burden of taxation on to the back of the cities. For many years the cities have suffered under the inequitable valuations of the State tax commission. The reports on file in the Auditor General's office show that twenty-nine of the rural counties receive more money from the State than is paid by them. I am of those who believe that the seven million majority received by President Harding was in itself a protest against taxation. The country today is suffering as a result of unscientific and unjust taxation. This is no time for tax tinkering. What the country needs today is less laws and less taxation. In my judgment the slogan "Hands Off" of business at this time is the wisest course for Legislative bodies to pursue. I can understand the position of Senators' Baker and McArthur who have been consistently and honestly urging this resolution, I cannot understand the position of other Senators, who have suddenly changed their minds in the face of overwhelming public sentiment.

It may appear to some that my position in this matter is as a result of my political disagreement with the Executive. My answer to that is the Senate record. I have supported administration measures whenever in my judgment the administration was right. I have opposed the administration just as vigorously when I thought it was wrong. Aside from any other considerations, my vote in opposition to this resolution is because I have in my minds' eye the spectacle of one hundred thousand unemployed in Detroit, who feel that this Legislature in submitting this matter at this time is only further halting the return of prosperity.

Mr. McNaughton moved that when the Senate adjourns today it stand adjourned until tomorrow, Friday June 10, 1921, at 9:00 o'clock a. m.

The motion prevailed.

Messrs. Bolt and Vandenboom asked and were granted leaves of absence from the remainder of the session of today and the session of tomorrow.

Message from the Governor.

The following message from the Governor was received and read:

State of Michigan,
Executive Office, Lansing.
June 30, 1921.

To the Honorable,
The President of the Senate.

Sir:

Since the adjournment of the first special session of the Legislature on June 20th, the Administrative Board has endeavored to make disposition of the thirty millions of bonds authorized to be issued by virtue of the provisions of Act No. 1 of said session and in this connection has been in almost constant communication with the representatives of banking and bonding institutions for the purpose of securing the necessary funds with which to pay ex-service men in accordance with the mandate of the Legislature.

When the bids were opened on the 15th of June, it was ascertained for the first time that within a very short period previous to that date the market conditions for securities of this nature had become unsettled and that there was little immediate likelihood of finding purchasers willing and able to accept these obligations and make payment therefor within such a period as would insure the payment of the bonus moneys as rapidly as required. In fact, on that date the prospects for the sale were very meager. This was almost wholly due to the fact that the bond market at about that time had taken a bad turn and many financial institutions found themselves in possession of different issues of securities theretofore purchased which they were unable to dispose of to their customers. It was in no part due to the interest rate of five and one-half per cent. which the coupon bonds bear. Besides this, the question has arisen as to whether the bonds were exempt from taxation in Michigan. This question has been discussed and there is a variance of opinion thereon. Various suggestions have been made as to what action should be taken by the State to close up the matter satisfactorily and among them it has been proposed that it may be necessary to issue temporary bonds or notes so as to tide things over until conditions become more normal. The situation thus canvassed has also disclosed the fact that it is an utter impossibility to dispose of serial bonds bearing the five and one-half per cent. rate at this time, and the best information that we are able to obtain is that such bonds would be absolutely a drag upon the market. Taking the whole matter in consideration, I thought it advisable to call this special session so as to remove all doubts concerning the tax exemption features of these obligations—to provide for the issuance of temporary bonds, notes or certificates and to amend the act referred to in such manner as to place the Administrative Board in a position where, without undue technical restrictions, it will be able to negotiate these loans so as to carry out the intents and purposes of the constitutional amendment and the will of the people as expressed by the action of the Legislature.

To accomplish these purposes, the Legislature is respectfully requested at this session to amend Public Act No. 1 of the First Extra Session of 1921 by

incorporating a tax exemption clause therein, raising the maximum rate of interest to five and three-quarters per cent and also authorizing the State Administrative Board to prescribe the time of issue, date of redemption and place of payment of the bonds issued. In addition to these amendments the Board should be authorized to issue temporary bonds, notes or certificates so as to enable the prompt negotiation of the thirty million dollar loan.

There should also be an additional appropriation to defray the expenses of the Legislature for the biennial periods ending June 30, 1921, and June 30, 1923.

Respectfully submitted,

ALEX. J. GROESBECK,
Governor.

Ordered, That the message of the Governor be printed in the Journal.

Whereas, There are on the statute books of the State of Michigan many laws designed to protect the interests of the professional classes of our State, making it possible for them to control and regulate their fees and salaries in accordance with their desires, such control being managed by commissions composed of members of their own professions, and said commissions have been created and protected by special legislation designed for that purpose and which to the author of this concurrent resolution appears to be class legislation and unconstitutional, and will in time create class hatred and strife, therefore be it,

Resolved, By the Senate (the House of Representatives concurring), That this Legislature convened in extraordinary session hereby instructs the Attorney General to investigate as to the constitutionality of the laws above referred to.

Resolved further, That should the laws creating special commissions to foster professional interests be found to be constitutional, then the Attorney General shall, and is hereby instructed to draft a bill designed to create a non-salaried commission, the personnel of which shall be composed of actual farmers of this State, whose duty it shall be to pass upon the qualifications of all persons engaged in the business of agriculture in the State, who are real producers and equally entitled to State protection and without whose service our State could not long exist.

As a Mexican and as the head of the government of this country, I grasp the opportunity to express my sincere gratitude for the just and noble action which the Senate has taken.

Messages from the Governor.

The following message from the Governor was received and read:

State of Michigan, Executive Office,
Lansing, July 19, 1921.

To the Honorable, the President of the Senate:

Sir:—Public Act No. 147 of 1921 was approved May 11th. Public Act No. 348 of 1921 was approved May 18th and inadvertently repealed certain amendments made by Act No. 147.

For the purpose of correcting this error, Section 4 of Act No. 279 of the Public Acts of 1909, as amended, being an act to provide for the incorporation of cities and for revising and amending their charters, and known as the Home Rule Act, should be amended.

The Department of Conservation has at present the right to accept gifts of property for park purposes but has no authority to contract with counties, townships or cities for their maintenance and improvement. This power should be conferred upon that Department and a bill embodying the necessary provisions has been drafted.

Section 16 of Act No. 302 of the Public Acts of 1915 as now amended relating to lights on automobiles has been found to be altogether too drastic in its requirements and affords an opportunity to unduly impose upon owners of automobiles. Some of its provisions and restrictions should be repealed and others amended so as to make them conform to the reasonable demand of public safety and travel.

These subjects are submitted for your consideration and action and I consider it appropriate to thank you individually for the large attendance on the closing day of this session.

Respectfully,
ALEX. J. GROESBECK,
Governor.

The message was ordered printed in the Journal.

The following message from the Governor was received and read:

State of Michigan, Executive Office,
Lansing, July 19, 1921.

To the Honorable, the President of the Senate:

Sir:—In addition to matters already submitted, I herewith submit the following for consideration:

Inadvertently there was omitted from Act No. 293 of the Public Acts of 1921, a

provision granting power to enter an order for the appearance of defendants in proceedings covered by the Act. This should be corrected.

Respectfully,

ALEX. J. GROESBECK,

Governor.
